INDEX OF CHURCHES

The General Assembly of 1930 directed that the Alphabetical List of Churches be printed in the Minutes (see page 80 of 1930 Minutes).

Explanatory Note

Churches are alphabetized both by name and by post office.

Where the name of the church appears first the Presbytery is then given in parenthesis, followed by the name of the town or city, and the date given indicates year of organization. Mailing and street addresses are shown under names of towns or cities. Towns or cities are listed first when similar names of churches occur.

When two addresses are given, the first indicates mailing address. If there is no mailing address but is a location address, a dash (—;) indicates that no mailing address is given.

The Presbytery is used instead of a page number for reference to Statistical Reports. For the convenience of those who are not familiar with the presbyteries, an alphabetical index, with page number for each presbytery is given on page *iv*-Part II.

This index is as accurate as it could be made by comparing the reports of the presbyteries with the reports from the individual churches.

Churches dissolved or dismissed to other denominations in the current year are not listed below. See tables headed Churches Dissolved or Churches Dismissed to Other Denominations.
